E. A. BAKER & Co.

TOWN COUNCIL.

Meeting on Monday Evening—Reports of Committees—Electric Wire Installation.

At the regular meeting of the council on Monday evening there were present: Mayor Cass; Councillors Hitchcock, Stunt, Simington and Fletcher.

ACCOUNTS.

Moose Jaw Times, printing notice of nomination, \$1.50.—Fin. Com. E. C. Horison, electric lighting, \$35.81.—Fin. Com.

Paul Ostrander, \$7.75.—Fin. Com. R. J. Hood, labor done by Morgan, \$1.00.—o. d.

A. W. McConnell, Salary Town Inspector, \$25.00.—o. d.

FIRE, WATER AND LIGHT COMMITTEE. To the Mayor and Council, Gentlemen,—

Your committee beg to report as follows:

With reference to the communication handed to this year fire, water and light committee re the improper insulation of the wires of the Moose Jaw Electric Light Co., we find upon careful enquiry that there is no danger of fire from the present system of current and that the wires pass through rubber tubing where it is necessary and that in one case that was mentioned the owner upon being interviewed stated that in no case had any wire in his building been burnt out. With regard to the wires on Main St. north these were in the course of removal and were left in the position indicated until the removal. As to the wires being uncovered in several places we would suggest that Mr. Robinson be asked to make a careful inspection of the various lines under his control and where there are any exposed wires to have the same taped as soon as possible and thus avoid the loss of electricity and that a copy of this report be sent to the Moose Jaw Board of Trade and to Mr. Robinson.

FINANCE COMMITTEE.

To the Mayor and Council, Gentlemen,—We, your committee on finance, have considered the various items referred to us and would recommend the adoption of the following decisions:

1st. That orders in favor of E. Simpson & Co. for \$275, fire, water and light account; Moose Jaw Times \$7.50, finance acct; Mrs. McWilliams, 50¢, health and relief acct, be drawn and paid.

2nd. Upon reference to acct's paid this year we find that the acct for nursing indigent woman was included in a bill presented by Mr. Kern and was paid by order drawn on April 25.

3rd. We would recommend that \$1,000 be paid the School Board as requested in their application of May 7th.

4th. We cannot recommend that the appeal of Messrs. Lang & Fisher be granted for the refund of license paid, as the concert in question was only part unpaid local talent and balance was imported, paid professional talent, and was advertised as an entertainment by Greenville P. Kleiser, and Messrs. Lang & Fisher were simply his agents, and we would suggest that the Clerk notify Messrs. Lang and Fisher of this decision.

5th. We would also recommend that the sum due John McMillan for contract of building sidewalk on east end of Manitoba St. now in dispute be paid into court with a view of saving costs that may be incurred by holding same in suspense.

C. A. W. STUNT, Chairman.

Fletcher—Hitchcock—That report of Finance Committee be received. Carried.

Fletcher—Simington—That clause two of the Finance Committee report be referred back to the Health and Relief Committee. Carried.

Stunt—Hitchcock—That the report of Finance Committee, except that portion referred back to the Health and Relief Committee, be adopted. Carried.

Simington—Stunt—That the Clerk inform Mr. John McMillan that if he does not proceed to finish contract of sidewalk on Manitoba St. at once the council will complete same and charge cost to him. Carried.

Stunt—Hitchcock—That Mr. Ross be allowed to address the council. Carried.

Mr. J. H. Ross then addressed the council in reference to the delegates to wait on the Government at Ottawa.

Simington—Fletcher—That the Mayor and Councillors Hitchcock and Stunt be a committee to meet the council of the Board of Trade to draft resolution to Dominion Government re the Moose Jaw dam. Carried.

Simington—Fletcher—That Board of Works be requested to call for tenders for replanking bridge across Thunder Creek, south of railway. Carried.

Fletcher—Simington—That Councillor Hitchcock be appointed chairman of Finance Committee and fill the place on the other committees in which ex-councillor Fysh was a member. Carried.

Simington—Stunt—That Mr. Fysh be requested to call papers, documents and books belonging to the Municipality at once.

Simington—Stunt—That proposition of Enoch Colpitts re stone sidewalk on Manitoba St. be entertained. Carried.

Fletcher—Hitchcock—That in pursuance of resolution passed and confirmed by By-Law for the purpose of borrowing \$3,000 from the Bank of Montreal by note and depositing the debentures of the town with said bank as security, note drawn two months from March 31st with interest at 10% per annum, and whereas said note falls due on June 30th, 1894, therefore resolved that this Mayor and Treasurer be and are hereby authorized to renew said note for the sum of \$3,000 with interest at 10% per annum for the space of two months from June 30th, 1894, and that a certified copy of this resolution be forwarded with renewal note. Carried.

On Friday and Saturday, May 18 and 19, Mr. Goggin, Superintendent of Education, conducted a Teacher's Institute in the school here. The following teachers were in attendance, viz:

Emily M. Green, Boham; Lia McMillan, Mulboro; Nellie Saunders, Fairwell; Marion Stevenson, Buffalo Lake; John A. Connelley, Pioneer; Isabel McLeod, Sam Gerald; Ella Scott, Eastview; Robt. E. Campbell, Westview; John R. Green, Carleton; Jessie Rothwell, Caron; Neil Muloch, Coventry; Ida M. Glass, Leamington; Principal Eskine, M. R. Laycock, Miss Barnett and Miss Dickie of the Moose Jaw Public School.

The session was opened on Friday morning by Mr. Goggin with a very practical lecture on Primary Composition. His explanation and illustrations of the best methods of teaching this important subject, primary classes, were very interesting and very helpful to the teachers present. The afternoon session was taken up with illustrating a general outline of how to teach and the value of teaching history. After the subject had been thoroughly discussed and a number of questions in the question drawer answered by Mr. Goggin, the session adjourned till the following day.

On Friday evening a public meeting was held in the town hall at which Mr. Goggin delivered an able lecture on the subject of "Morals in the Schools."

The Honorable J. H. Ross, Speaker of the Assembly, presided, and in a short address introduced Mr. Goggin to his audience.

The lecturer began with a definition of terms. Morality, he said, dealt with man's relation to man; religion with man's relation to God. The great object of education is the preparation of the individual for a life in institutions. The great cardinal institutions of civilization and hence of education are the family, the vocation, the state and the church. Auxiliary to each of these institutions and reinforcing them are schools—the common school, the trade school, the military, naval and political science schools and the Sunday school. It is necessary to remember the function of each cardinal institution and its accompanying schools since the end aimed at by all will be most surely achieved by each preparing its own work. The history of Christian civilization shows that while formerly the church dominated the other institutions they have gradually developed into independence and the character of the accompanying schools has changed. The common school is now shaped by state rather than church needs.

All these institutions deal with the child, a being with a three-fold nature—physical, intellectual and practical—who is to be led to correct living, correct thinking and correct habits of action, and these three cannot be

separated. The common school has two functions—instruction and discipline. The disciplinary side of its work is the topic of this address. For great mechanical planes underlie all others, viz: obedience, regularity, punctuality and energy. These conditions work in the school in the vacation and in the state. The four elements in moral training are knowledge of one's duty, right motives, opportunity for choice, continued practice till habit is established. There is as much need for instruction in duty as in grammar or arithmetic. Work may be secured by the use of motives that degrade. It is important that a child set correctly, but far more important that he act from right motives. Age we all as anxious about the motive we employ as about the work itself. Do character and scholarship hold their proper relations in our schools?

That a child may grow into a self-determining agent *opportunities* for choice must be afforded him. Strength of will comes through exercise, yet he should not be tempted *greater* than he can bear. Habit is established by repeated exercise in any given direction. Growth is from the easy to the difficult till man is master of slave.

Our programme of studies contains a list of duties to self, to others, to the state and to God, and it will be the duty of our teachers to present these to their classes and enforce them in the ways just mentioned.

The speaker then discussed some what in detail how to present self-culture, purity in thought, word and deed, industry and economy, truthfulness, courtesy, including forms of politeness in the school, home, church, society and public meetings, respect for others rights whether of person, property or reputation, respect for parents, benefactors and those in authority, and the chief duties a man owes to the state. He urged the greatest care in the selection of teachers, especially on the side of morals and manners since children are so prone to imitate, and closed with an earnest appeal to his fellow teachers to remember the three-fold nature of the child and to aim at rounded development of character.

A hearty vote of thanks was moved by Rev. W. L. Clay who briefly addressed those present. The motion was seconded by Mr. T. B. Baker and carried unanimously.

After a vote of thanks to the chairman, moved by Mr. W. L. Grayson and seconded by Mr. Hamilton Lang, the gathering dispersed.

On Saturday morning Mr. Goggin outlined different methods of teaching primary reading. A class of Standard I pupils were then brought in and an excellent number lesson was taught them by Miss Stevenson. A primary literature lesson was then taught to a class of Standard II pupils by Miss Green. After considerable criticism of these lessons by the teachers present the session adjourned.

On Saturday afternoon a number of visitors were present, including some members of the school board. Mr. Goggin discussed literature, and showed how, by proper teaching, it could be made a very interesting and valuable subject, even in the lowest grades of the public schools. After some discussion a very successful institute was brought to a close.

A Case of Bull Baiting.

Since our last issue three novel cases have been tried in Moose Jaw. They were respectively Bull vs. Catford, Catford vs. Bull and Bull vs. Bull. The first two were tried before Magistrate Green and the last was settled out of court. On Friday last according to the evidence adduced Adam Bull and Geo. Porter were driving Kent's herd down the highway when their herd merged with Adam's herd in charge of Catford. It was here that the case of Bull vs. Bull was decided. The male bovines of each herd had an exciting battle. It resulted in a victory for the spotted bull.

The two boys were riding the same horse. Porter being ahead, Catford got very angry at the delay and because Adam Bull laughed he struck him with his whip. At the trial he pleaded not guilty, but he had struck the horse on which Bull was riding. He was fined \$5 and the costs of the court.

William Bull appeared at the same time as a witness to a charge of assault preferred by Catford. He gave evidence that on Sunday he and the defendant had some hot words and that Bull threw a bone through the window of the house of Catford's wife.

Heads Kept in Circulation. Evidence. Edward Bull gave evidence that his brother was five feet nine inches tall and that the defendant found Bull guilty of the assault and fined him the costs of the court.

"Not clinging to some ancient saw,
Not mastered by some modern term,
Not swift nor slow to change; but firm."

FRIDAY, MAY 25, 1894.

A SOCIAL REFORMER.

During the week the public of Moose Jaw have been vastly amused by a placard which was posted up in conspicuous places in frequented thoroughfares. The composition is in the peculiar grammar, the peculiar orthography and the peculiar chirography of Mr. William Rutherford, and being a literary gem we deem it only right that mankind in general should have the benefit of it. It reads as follows:

NOTICES

to the people of Moose Jaw and surrounding district, that I have been notified that legal proceedings will be entered against me if I don't come and pay \$40.60 forty nine dollars sixty cents to Mr. Morality of Legality hall Moose Jaw (Wm Grayson) now I have got a full copy of all the legal expense, and the most outrageous verdict passed upon me, perhaps worse than it had been guilty—now I sent a full copy of that Bill of law expenses to the Editor of the Moose Jaw Times as correspondent of that good paper which makes glad & enjoys the hearts of the farmers till they are glutted full of the political & strange & mighty happenings by sea & by land & of the iniquitous doings of the powers that be. And other personal items from correspondents to that worthy organ that is not scared although busy at times and may fall behind. But I think the farmers of Moose Jaw district after reading the TIMES May 11th an article beginning man born of woman &c &c may feel it their duty to secure a Berth in the sanctum of incurables outwardly he seems to be short sighted & inwardly something far worse (Mr. H. Lang) if his Benediction is such a blessing to the farmers and will make rejoicing throughout the land then the farmers should send a petition to Ottawa for \$1.50 such to bring in this new millennium. P. S. don't miss Hearing Wm Rutherford's trial for his debts and you may be surprised to find out the real origin of them. I don't fear the Hangman's rope when it is forthright and suffering humanity I am pleading for. If the three Graysons were sitting in power in Canada we would be worse than under Leo XIII Foster and that is—y inspired prophet Van Horn. I know the whole six of them now as Chas Brathwaite says I am brimfull running over with experience.

WILLIAM RUTHERFORD
17 Langdon Crescent.
Moose Jaw.

On March 30th a communication was received from Mr. Rutherford on the subject of law costs. With growings of spirit (for the matter was hard to set, as the fingers of more than one of our compositors can testify) the communication passed the blue pencil. The letter contained a copy of a bill of costs in which there was certainly some outrageously wild charging, and it did indeed appear a scandalous thing that \$32.58 should be taxed off a bill of costs in one suit. But while it showed to what lengths an unscrupulous and unprincipled lawyer will go in such cases, it also showed that the law would not countenance such practices, but protected Mr. Rutherford to the extent above mentioned. Mr. Rutherford neglected, however, to say in his letter that it was Mr. Grayson who secured him this taxing off.

The next week Mr. Rutherford brought in another letter containing two more bills of costs, and this time they had not been taxed. He also gave us the securing and refreshing

intelligence that he meant to continue the letters as a series to run through a large number of weeks. For cogent reasons, the chief of which was that we were not in a position at that time to enlarge the TIMES to an eight page paper, publication was impossible.

Through we are outwardly shortsighted and inwardly a very bad man, even he devil can quote scripture. We remember to have read long ago, before we became such an immoral monster, something about answering a fool according to his folly. There are a number of citizens in town who have encouraged Mr. Rutherford in his stupid and senseless course and at the same time have been laughing in their sleeves at him. The men who "do not fear the hangman's rope" and are eager to "take a spear and head an army against the oppressors," exist only in dime novels, and if people would not countenance and seemingly applaud Mr. Rutherford when he makes such extravagant statements he would soon betake himself to profitable employment. But failing beneficial results from such treatment the Government has provided comfortable quarters in a town that we need not name where creatures with such abnormal brain developments may harangue each other to their heart's content, and if brooding upon their fancied oppression render them violent they can wreak vengeance upon walls fitted up with a very plain but at the same time very serviceable upholstery.

BRAVE WORDS.

Mr. J. B. Spurr has left the editorial chair of the Edmonton Times. In his valedictory he says:

"No matter how the public may try to ignore it, the local paper will ever be the symbol of public sentiment to the outside world and no organization can rob it of that destination."

"As a business, the Times has been conducted upon that strict professional principle which characterizes the leading and respected newspapers of the Dominion, and has not stooped to the chronic and prize competition method in order to foster its circulation or receive notoriety, believing that a newspaper should be respected and receive its support from those who are in sympathy with its policy and not those who are induced to subscribe through catch-penny schemes. Outside of the newspaper department a similar policy has been pursued, and the solicitous street canvassing system has been as carefully eschewed as in any other business, whilst this policy has in some instances left the local press to the mercy of the quack job printer who, without paying taxes or contributing to the town's welfare, takes orders for printing at professedly cheaper prices, it would be unfair to the business men of the town were we to say that they did not accord to the press that consideration of which it is deserving; nevertheless, now that it cannot be said that our motive is mercenary, we will say that an editor, in furthering the interests of the district would be much accelerated were he to receive an animosity of public patronage commensurate with his share of that business which is really done, and to which he is more than entitled by the great amount of gratuitous work he does in the town's interests."

TROUBLE IN CUBA.

It has been reported in inner diplomatic circles in Washington that another uprising in Cuba is imminent. For over two weeks lengthy cable dispatches in cipher have passed between the Spanish minister to the United States, Senor Don de Murguaga, and Madrid, and a representative of one of the leading detective agencies of the country has been a frequent visitor to the residence occupied by the legation. It is understood that the agency in

question has had its operators at work for several months in Philadelphia, New York, Chicago and other cities, and that enough facts have been gathered to justify the belief that the Cubans are preparing for another revolt against Spanish rule, and that they are receiving material assistance in the form of money and munitions of war, as well as in the shape of advice and suggestions, from their countrymen in the United States. In the three cities named secret meetings of Cubans are said to have been of nightly occurrence for several months past, and in the proceedings a number of noted exiles have taken part. Whether or not, however, an expedition from this country has been planned is not definitely known. It is certain at least that neither the Spanish minister nor Senor Sagrario, the first secretary and charge d'affaires, have considered it necessary so far to make any representations on the subject to Secretary Gresham.

EDITORIAL NOTES.

During the month of April the public debt of the United States was increased by nearly \$9,000,000. And this too, at a time when the Government is unable to expend one dollar on public works to help the unemployed.

The work of tearing down the World's Fair buildings began on Thursday last on a large scale. The Woman's and Fisheries buildings were the first to be attacked. All the statues which ornamented the Woman's building were taken down without damage.

During the past year the Australian Colonies decreased very much in their trade, British Commerce was less than the year previous to the extent of \$133,000,000. French commerce declined \$97,000,000. United States trade fell off \$133,000,000. In the face of this fact it is a pleasant thing to remember that Canadian trade during the past year shows an increase of \$12,185,431, half of which increase was increase in the export of home products, the total trade for the year being the largest trade that Canada has ever done.

The various committees are now hard at work preparing for the annual summer fair of the Winnipeg Industrial Exhibition association, which opens on July 23. The prize list will be issued in a few days, and can be had on application to the secretary. The sub-committee of the grounds and buildings visited the grounds on Monday and completed the arrangement for the planting of trees, repairing the race track, etc. About 1,000 trees will be planted at once. Instructions have been given to have the track put into first class shape as quickly as possible.

RECORD BREAKERS.

Frank Brown says Dodd's Kidney Pills gives Universal Satisfaction—The reason is They Never Fail to Cure.

SHELBURNE, May 21.—Frank Brown the well known druggist here says: "In the past eighteen months, I have sold 119 dozen of Dodd's Kidney Pills. Considering the quantity I have sold, I have had an opportunity of ascertaining whether the pills give satisfaction or not. I can say, that during my fifteen years experience in the drug business, I never sold a medicine that gives the universal satisfaction that Dodd's Kidney Pills do. I am satisfied any person suffering with kidney trouble only requires to give Dodd's Kidney Pills a fair trial, and he will be convinced of their wonderful curative properties."

BOHARM JOTTINGS.

Rambler in last week's TIMES has well said "Who is afraid?", but time has been very precious during the last few weeks in this locality, that writing even love letters is out of the question.

All who take the Moose Jaw TIMES and those who do not will do well to procure a copy of next week's for "Wandering Willie." He will give the names of all the leading members of society in Boharm in alphabetical

The Government test drill is now at work in this district and is meeting with fair success.

Seeding is all done in this district and owing to the early showers the grain is growing fine.

The grain is all in on the Carie place and is looking lovely.

The young men of agriculture have been very busy of late, so much so that they have not been able to go to see their girls but the professional young men of this place seem to have more time than usual on their hands for such things.

WANDERING WILLIE.

CARD.

I desire to inform the public that the almost indiscriminate distribution of Lumber and building material from my yard, which has taken place since Oct. 1888, came to an end on

1st of JANUARY, 1894, owing to circumstances not wholly within your control or mine.

In future a full stock of the best will be kept and sold for CASH and CASH ONLY, except to Builders and Contractors, who can arrange for short credit at reasonable rates.

All parties who in the past agreed to pay by monthly instalments must in future keep up their payments or deal with my Solicitor.

Thanking past customers for their confidence and support, I am, gentlemen, your obedient servant,

H. McDougall

It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by W. W. Bole.

See Austin McDonald before you start house cleaning. Kalamining, paper hanging, painting and round decorating a specialty. The only one who has the improved Germ-Kaiser to wash walls with.

A. B. Thom, photographer, of Winnipeg, will be in Moose Jaw and vicinity until the 2nd of June. For quality and finish no work ever done in the west to compare with it. Good farm views wanted and free. All work finished personally.

The Twenty-fourth. Yesterday was quickly spent. Several parties and driving and boating parties were organized and a pleasant day was spent. In town trap shooting occupied the afternoon and the Y. P. S. C. R. concert the evening.

Sage Growing. The other day one of our farmer friends bought a pound of Lucerne clover seed at Mr. Baker's. At the same time a chinaman was buying a pound of sage. The parcels were unwittingly exchanged and the farmer sowed the sage. What kind of a crop he will get is a puzzling question.

Trap Shooting Contest. At the pigeon shooting contest yesterday the shooting was rather poor. The gold button was captured by A. Hitchcock, the silver button by J. S. Macdonald and the bronze by S. Young Green. In the sweepstakes W. B. Crobie won first and D. S. McVannell second. Another sweepstakes took place this afternoon the same parties winning.

Y. P. S. C. R. Concert. A concert was given on the evening of the 24th in the town hall by the Y. P. S. C. R. of the Presbyterian church in aid of the new organ fund. From a financial point of view the concert was a success. The most praiseworthy features of the evening were the fine organ and the display of flowers. A great number on the programme was a duet by Bertha Richards and Nelson Morrison, the former playing the guitar accompaniment. Both girls have excellent voices and with training will make excellent singers. Miss Barnett recited "Betsy and I are out" but because of the noise made by two ladies inside the hall and the Salvation Army without it was impossible to hear her. Miss Mariatt's recitation was somewhat spoiled by the Coxey Army in the Barber shop singing "Let us sing of the Days that are Gone, Maggie." Prof. Saxby, of Regina, sang several comic songs that apparently pleased the audience. A really good song by Mrs. Thompson "Jessie's Dream" was rendered utterly ludicrous by an attempt to produce Highland music on a violin and in a different key to the accompaniment of the song.

An alleged tableau in which about three dozen took part brought the entertainment to a close. It is best described by an interrogation point.

Moose Jaw certainly has talent and it is a pity that a dramatic club and choral society is not formed as both would do much to elevate the character of our concerts and meliorate affairs like that of Thursday evening would soon become a thing of the past.

PROF. ROBERTSON TALKS.

An Interesting Address to Farmers.—Hopeful Words for the Moose Jaw Creamery.

Professor Robertson arrived in town this morning in company with Mr. Angus MacKay. He addressed a large public meeting this afternoon in the town hall. A number of ladies were present. President Battell occupied the chair. Prof. Robertson delivered an interesting and instructive address on matters of vital importance to the farming community. He pointed out that his department existed for educational purposes only. Its object was to help farmers to make more money.

He gave some interesting statistics regarding the increase in returns from dairying. He spoke at length of the advantages of dairy farming compared with wheat raising and pointed out that butterfat twenty-four cents per lb. was exactly more profitable than wheat at forty cents per bushel. Prices of grain have declined from 30 to 40 per cent during the last ten years. Railways have penetrated grain-growing countries and have provided them with a market. A market never mothers a man. Now, says the professor, the telegraph and his wife and bought in the cheapest market. In the olden days in Ontario grain growing meant doing without things. The pioneers were content to make ends meet, and luxuries in their houses, furniture, clothing and food were secondary considerations. Unskilled labor is largely utilized in the growing of wheat and is satisfied to take unskilled labor's pay. The Indian and Russian will work for 20c. per day and clothing, housing and food cut

little figures with them. The North German, Swede, Dane, English, Irish, Scotch and Canadian are the better makers of the world and they are poor who will not work for 20c. per day. As long as people eat fine food the butter industry will be profitable.

The professor then discussed freight rates and the effect of wheat growing upon land. One ton of wheat takes as much nourishment from the land as 400 tons of butter. The establishment of creameries will increase population and the presence of population makes property valuable.

Proceeding to the matter of the Moose Jaw creamery the professor discussed the situation fully and promised that at any time during the first month he received a report that 3,600 lbs. of milk, or its equivalent in cream, per day was received for any one week, the management of the creamery would be taken over by the government and it will be run as an experimental dairy station.

Several other matters connected with the farm were then discussed and much interest was evinced by those present.

Mr. Angus MacKay was called upon and concurred in Prof. Robertson's remarks regarding the importance of dairying. He believed that if the farmers would go into stock raising, fodder growing and dairying they would be assured of a return. With wheat growing it is not so. He predicted a successful season for the creamery.

Votes of thanks to Prof. Robertson and Mr. MacKay for their efforts in behalf of the Moose Jaw Creamery were moved by Wm. Watson and seconded by S. K. Rothwell.

Both gentlemen returned thanks for the vote and Mr. MacKay hoped an excursion would visit Indian Head this summer.

CARMEL NEWS.

The farmers have finished seeding in this district. The grain is all up and is looking fine.

The News Gatherer has been busy for the last while and wishes the times would be more lively.

Miss Ida Powell is visiting her sister Mrs. Kerr for a few days.

Mr. John Smith while herding cattle on Sunday last let a cow stray into Mr. John Glover's orchard and did quite a lot of damage.

Mr. Royal Harris has been working for Mr. Cheever through seeding.

Mr. Lyons has recovered from his recent illness.

Mr. Powell is for having plenty of potatoes. I believe he has planted 30 bushels.

The people in Carmel has had no luck in raising goslings this spring.

Mr. John Small has been busy putting in his crop.

NEWS GATHERER.

Wine, Liquor and Cigar Store.

During the hot weather I will keep constantly on hand a full supply of Lime Juice, Champagne, Ginger Ale, Ginger Beer, Sarsapilla, Champagne Cider, Cream Soda, Plain Club Soda, Apolaris Water and Cordials.

See my new stock of Pipes and Cigars.

O. FIELD.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the conditions governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location for the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral substance within the limits of the location of claim.

A location for mining, except for coal, shall not be more than 1,000 feet in length, nor more than 600 feet in breadth. A location for mining shall not exceed 100 acres in area.

On discovering a mineral deposit any person may obtain a mining location, upon marking out his location on the ground in accordance with the regulations in that behalf, and filing with the Agent of the Dominion Land for the district within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location, applied for during the first year of its term. The entry will be renewed from year to year provided the sum of one hundred dollars at least has been expended in actual mining operations on the claim within each and every year.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent thereof \$5 per acre, and the other sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS, Deputy of the Minister of the Interior, Department of the Interior, Ottawa, July 1890.

North West Territories.

All even-numbered sections of Dominion Lands in Manitoba or the North West Territories, except 8 and 26, which have not been homesteaded, reserved to provide wood lots for settlers, or other purposes, may be homesteaded by any person who is the head of a family, or any male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office for the District in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive an authority from some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

HOMESTEAD DUTIES.

Under the present law homestead duties may be performed in the following way, namely, by three years' cultivation and residence, during which the settler may not be absent more than six months in any one year without forfeiting the entry.

APPLICATION FOR PATENT

may be made at the end of the three years, before the local agent, or the homestead inspector. Before making application for the Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands his intention to do so. When, for convenience of the settler, application for patent is made before a homestead inspector, a fee of \$5 is chargeable.

INFORMATION.

Newly arrived immigrants will receive at any Dominion Lands Office in Manitoba or the North West Territories information as to the lands that are open for entry, and the officers in charge, free of expense, advice and assistance in securing lands to suit them, and full information respecting the land, timber, soil or mineral laws, the copies of these Regulations, as well as those respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Department of the Interior (Immigration Branch) (Ottawa), the Commissioner of Dominion Lands, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North West Territories.
